

# Executive Board

**Prof. Dr. Angelika Brückner**  
LIKAT Rostock

**Dr. Katrin Friese**  
BASF SE, Ludwigshafen

**Prof. Dr. Jan-Dierk Grunwaldt**  
Karlsruhe Institute of Technology (KIT)

**Dr. Bernd Jäger**  
Evonik Resource Efficiency GmbH, Hanau

**Prof. Dr. Udo Kragl**  
Universität Rostock (Chair)

**Dr. Andreas Meiswinkel**  
Linde AG, Pullach (Deputy Chair)

**Dr. Gerhard Mestl**  
Clariant AG, Heufeld

**Prof. Dr. Reinhard Schomäcker**  
TU Berlin (Deputy Chair)

**Prof. Dr. Dieter Vogt**  
TU Dortmund

## About GeCatS

The German Catalysis Society is the platform for the entire German catalysis community in the area of research and industrial application. Currently, it has more than 1100 members from industry and academia.

The aims of the German Catalysis Society are:

- To promote the scientific and technical dialogue between industry, academia, research institutes and research policy institutions
- To represent the interests of the catalysis community on a national and international level
- To raise the public profile of catalysis
- To advance the professional development of young scientists
- To support research and teaching in catalysis
- To support interdisciplinary cooperation
- To boost the transfer of research results to industrial applications

## Activities

- Establishment of a platform for the discussion of cutting-edge scientific and technical issues
- Cooperation with other national/European/international organizations
- YounGeCatS as platform for young researchers
- Organization of the Annual Meeting of the German Catalysis Society and of public events on catalysis topics
- Implementation of partnering events to accompany calls for proposals
- Awards for excellence in catalysis
- Lobbying funding organizations
- Analysis of research challenges (position papers, roadmap)
- Evaluation of research proposals
- Support and development of catalysis teaching networks in Germany

## Membership

Every member of the supporting societies (DECHEMA, VDI-GVC, GDCh, DGMK and DBG) interested in the work of the Society can, on request and **without additional fee**, become a member of the German Catalysis Society.

Membership applications can be downloaded at [www.gecats.de](http://www.gecats.de) or requested from [info@gecats.de](mailto:info@gecats.de).

### Your benefits as a member

- We offer you a network for scientific exchange of ideas and experience on catalysis
- We assist you in finding partners for your projects
- We inform you about current developments in catalysis, e.g. in our regular newsletter
- We inform you about workshops, information and partnering events on topics relevant to catalysis
