Third International Conference on Energy Process Engineering
Transition to renewable Systems
June 03 - 06, 2013 in Frankfurt/Main, Germany

Instructions for the Preparation of Posters

General Information:

The Posters will be presented and numbered according to the numbers in the programme of the conference. The programme will be put online in the first week of December and handed out in printed form on-site.

Each poster will be in the size of **0.85 m width** and **1.2 m height (DIN A 0) vertically orientated.**

The **poster number** is mounted by the organizers on top of the board.

The **author's name, address, e-mail address** and **the title of the paper** are to be indicated on the top section of the Poster.

Material for attaching the posters will be supplied by the organizers.

Writing or painting on the poster board is not allowed.

Poster display times:

All posters may be presented throughout ICEPE, i.e. from June 03rd – 06th 2013

Preparation of the Poster:

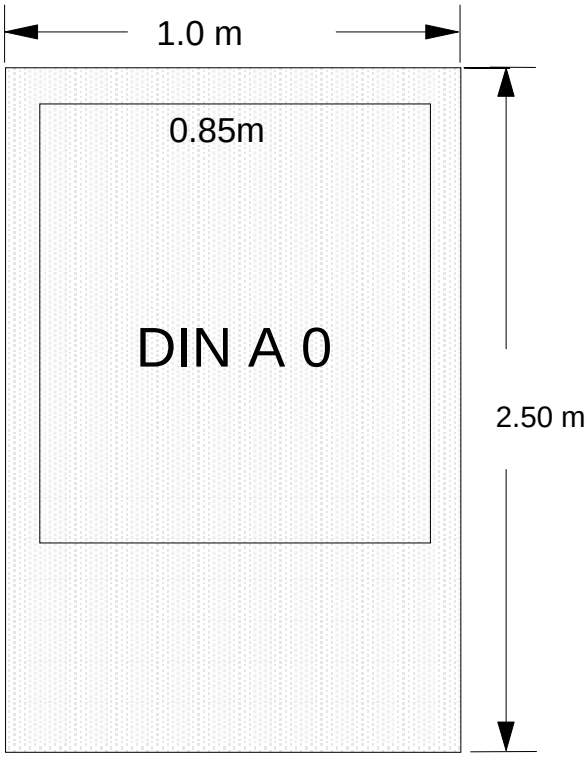
As a major guideline it is proposed to make the poster intelligible in itself, even in the absence of the author. It is suggested to divide the contents of each poster into
introduction, results and **conclusions**, with a summary listing the pertinent results and conclusions.

The poster should be legible from a distance of 2-3 meters.
Therefore, the **minimum size** should be:

- 20 cm for graphs;
- 3 cm for the paper's title and the names/adresses of the authors in the heading line;
- 1.5 cm for sections headings such as introduction, results, labelling of figures and tables;
- 0.8 cm characters in height for further text.

Line spacing: 1.1 cm at minimum; 10 of such lines correspond to one figure.

Please use colours, symbols and schemes for improved clarity.

Instructions for Poster-Authors


The standard size for all posters is 0.85 x 1.2 m
(DIN A 0-German Standard) vertically orientated as shown below.
